

Embossing Press 500 kN

Worldwide successfully proven: The best-selling embossing press from UTSCH.

The best-selling UTSCH 500 kN embossing press sets the standards for efficient embossing of license plates. It is designed to improve the workflow for best performance at the highest standards of work safety. Adjustable pressure and two high quality hydraulic cylinders ensure precise embossing results.

The 500 kN embossing press has a sub oil supply unit provided with an external oil tank. Since the tank is not integrated into the press body, even with constantly changing embossing pressure no oil can leak out into the embossing press itself.

Apart from the cost-effective, standard model, this embossing press is also available as a faster version that is twice as fast as the standard model.

The machine design complies with the CE safety standards.

Embossing Press 500 kN

Technical Data*

Voltage range**:	AC, 400 V, (1.5 sec.), 50 Hz (1.5 kW) / 60 Hz (1.8 kW), 3 Phases
Embossing capacity:	500 kN
Opening for embossing:	approx. 45 mm
Dimensions:	
without table and shelf	length: 1,040 mm, width: 795 mm, height: 655 mm
with table and shelf	length: 1,200 mm, width: 810 mm, height: 1,510 mm
Weight:	approx. 470 kg (including table)
Activation of embossing stroke:	secure, redundant (= double channel) activation of embossing stroke as per DIN ISO13849-1 / EN574/1

*Subject to alterations serving technical improvements. **Further voltage range on request.

Accessories for the embossing press 500 kN:

Robust table with plate shelving
Article-No. 7010030

Shelf for clapper dies
Article-No. 0761900

Embossing Frame
Article-No. 0461010

Counter Embossing Frame

Plastic Clapper Dies

Aluminium Inserts for Counter Embossing Frame
