The Frame

The ERUSTAR of UTSCH offers simple handling and a convincing design. This license plate frame combines all current legal provisions with the potential to get your advertisement extensively “on the road”.

Up to 18mm of advertising space offers a distinctive “greater” presence. A robust locking system withstands the wear and tear of daily use and gives a secure fit.

Four times ahead:

Perfect Handling!

Robust Locking!

Eye-catching Advertising!

Brilliant Look!

The ERUSTAR carries your advertising

- on classic black (if desired with an elegant white line)
- or on sophisticated silver,
- with brilliant look
- to many people over a long period of time.

The technology

System:	Two-part license plate frame consisting of base plate and advertising rail (separate order possible)
Size:	525 x 132 x 10 mm (width x height x depth), for standard license plates of 520 mm width
Advertising strip:	insertion-lip-system, printable up to 18 mm
Printing:	screen print, digital print, doming and raised letters
Quality:	high resistance against weather and UV radiation. No yellowing. Car wash resistant.
Safety:	Compliant with the EU standard.
Hole pattern:	Hole pattern suitable for all common car models and brands
Material:	Base plate made of PP (polypropylene = flexible and break-resistant), rail made of ABS. The product is completely recyclable!
