

Embossing Press 3000 kN

Universal application, simple and safe to operate.

This rugged, technically sophisticated machine is provided by UTSCH for the universal production of license plates in large quantities, including those of large dimensions: the variety of pressing areas allows a maximum passage of 700 mm.

Simple and safe to operate, it features adjustable pressure limits, an automatic switch-off device (when reaching the pressure limit) and a precise quality of the embossed image. Last but not least, it is economically efficient thanks to a rational work process.

The machine design complies with the CE safety standards.

Embossing Press 3000 kN

Technical Data*:

| | |
|---|---|
| Embossing capacity: | 3000 kN |
| Press area: | 700 x 350 mm |
| Cylinder stroke: | 50 mm |
| Connection load**: | 400 V, 50 Hz |
| Power consumption: | 4 kW |
| Dimensions, including protective hood: | length: 1,600 mm, width: 1,200 mm, height: 1,300 mm |
| Weight: | approx. 1,825 kg |

*Subject to alterations serving technical improvements. **Further voltage range on request.

Accessories for the embossing press 3000 kN:

Embossing Frame
Article-No. 0461010

Counter Embossing Frame

Plastic Clapper Dies

**Aluminium Inserts for
Counter Embossing Frame**
